

ARYASATYA ALAAUDDIN

087898952895 | aryasatyaalaauddin@gmail.com | www.linkedin.com/in/aryasatyaalaauddin/ | github.com/Ax3Irod

Full-stack developer with experience in building scalable web applications and backend services. Skilled in modern web technologies including Next.js, React, and Node.js, with hands-on experience in building responsive and reliable systems. Possess strong foundations in algorithms and data structures, with a strong interest in solving real-world problems through technology.

Education

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia

Aug 2023 - Present

Bachelor of Computer Science, 3.81/4.00

Experiences

Society of Renewable Energy ITS Branch - Surabaya, Indonesia

Jul 2025 - May 2026

Director of Web Development

- Led a team of 11 developers to deliver and maintain a full-scale web-based organizational platform, aligning technical implementation with operational needs.
- Designed and implemented a dashboard and automated validation system to support participant selection and operational workflows.
- Implemented CI/CD pipelines to improve deployment reliability and reduce integration errors across the system.

ITS Student Executive Board (BEM ITS) - Surabaya, Indonesia

Mar 2025 - April 2026

Front End Developer

- Developed a multi-language feature improving accessibility for 20,000+ users, enhancing usability across diverse user groups.
- Optimized frontend performance and resolved critical rendering issues, improving page load efficiency and user experience.
- Built scalable and reusable UI components using Next.js and Tailwind based on UI/UX and stakeholder requirements.

Information Technology Student Association (HMIT) - Surabaya, Indonesia

Feb 2025 - Feb 2026

Staff of Research and Technology Department

- Led backend development by designing API architecture and translating organizational requirements into scalable backend solutions.
- Designed a web development curriculum and onboarding program (IT Junior Preps) to prepare students for industry-level skills, including collaboration with Hacktiv8.

A Renewal Agent 6.0 - Surabaya, Indonesia

Nov 2024 - May 2025

Front End Developer Expert Staff

- Built 8+ core features including authentication and event management systems for a national-scale web platform.
- Developed frontend logic for user registration and dashboard systems with REST API integration.

Projects

AI Powered Steam Spam Detection

- Designed and implemented a hybrid data pipeline (streaming + batch) processing 6M+ records using Kafka, PySpark, and Trino.
- Built an AI-powered spam detection system using BERT + anomaly detection (Isolation Forest, K-Means) to identify fraudulent reviews
- Developed end-to-end system including data ingestion, ML pipeline, REST API (FastAPI), and dashboard visualization
- Orchestrated 9+ containerized services using Docker for scalable deployment.

SustainaMap

- Built an interactive environmental data platform with map-based visualization (Leaflet).
- Developed a location-based reporting system with a validation pipeline to ensure data integrity for user-submitted reports.

Virtual Try-On

- Developed a WebAR-integrated e-commerce prototype to enhance online shopping experience.
- Implemented a product interaction system with real-time state management and optimized UI rendering.

Achievements

- 2nd Place — GEMASTIK XVIII (Smart City)
- 3rd Place — FIT Competition 2025 (Web Development)

Skills

- Programming & Frameworks:** JavaScript, TypeScript, React, Next.js, Node.js, Express, NestJs, Laravel
- Tools & Systems:** Azure, Docker, Git, PostgreSQL, Prisma, Terraform, Ansible, Jenkins
- Additional:** Familiar with Kafka, PySpark, and adaptable to new technologies (including low-code/no-code platforms).
